How do we define “Applicant”?

An applicant must be an adult (refer to definition below) and will be the person to whom all correspondence relating to the program will be sent.

How do we define “Adult”?

An adult is a person 18 years of age and over.

How do we define “Household”?

A household is:

- a single adult
- an adult and spouse (refer to definition below)
- an adult and all dependent children (refer to definition below)
- an adult, spouse, and all dependent children

Note: Include all family members on the registration form, even if some family members have drug coverage through other programs. All family members are included in the calculation of household cap.

How do we define “Spouse”?

A spouse is a person who is married to you or with whom you are living in a marriage-like relationship. A spouse may be of the same gender.

How do we define “Dependent”?

A dependent is:

- a child or a legal ward of you or your spouse
- under the age of 18 years or under the age of 26 and attending a post secondary institution on a full time basis - confirmation of enrolment from the post secondary institution is required.
- not married and not living in a marriage-like relationship

A dependent can only be registered with one family at any given time.

What if I am single, 18 years of age or over and still living with my family?

If you are 18 years of age or over, and **NOT** a full time student, you must complete your own registration form. If you live with your parents and do not have a spouse or dependents, you are a family of one for our purposes. Do not include your parents’ names or their incomes on your registration form

How do we define “Household Income”?

For each household member, use Line 150 (Total Income) from the preceding year’s tax return, and deduct any amounts reported on lines # 210 (Split–Pension Amount), # 214 (Child Care Expenses), # 220 (Support Payments Made). This amount represents each individual’s income for the purpose of Drug Program coverage. Add together the individual amounts for each household member identified above to determine total household income.

How do we calculate “Household Cap”?

Take the household income you just calculated, determine which income range you fall under, multiply the total household income by the appropriate percentage.

Total Household Income Ranges		Percentage
\$0	to \$20,000	3%
Greater than \$20,000	\$50,000	5%
Greater than \$50,000	\$100,000	8%
Greater than \$100,000		12%
