

Web Presence Program

The Web Presence Program provides a non-repayable contribution to Prince Edward Island businesses to assist them in establishing a presence on the internet. Prince Edward Island is becoming one of the leading provinces for web presence in Canada. The purpose of this program is to help Island companies increase business by adopting technology.

The contribution under this program is limited to 40% of the cost to a maximum contribution of \$500.00 per small business.

ELIGIBILITY & APPLICATION

Eligible applicants include Prince Edward Island businesses and industry associations who presently do not have a web presence and plan to undertake activities that will lead to an effective presence on the web.

A completed application form along with a written quote from a web developer outlining services to be provided should be submitted to the address below.

Projects receiving other non-repayable contributions or grants from any source are not eligible.

ELIGIBLE ACTIVITIES

The types of products and services that could be eligible to qualify under the Web Presence Program include, but are not limited to, the design, development and hosting cost of a web site including the registration of a unique URL domain name.

Applicants should discuss their requirements with an Innovation PEI representative to determine if their activity could be considered for assistance under the program.

Application must be submitted before any financial or legal commitment is made on the project.

For More Information

Innovation PEI specializes in providing one-on-one business advisory services. Our qualified staff can also provide information regarding most business development programs offered by government agencies across Prince Edward Island. Application forms and additional program information can be obtained from Innovation PEI.
