SEED CERTIFICATION IN PRINCE EDWARD ISLAND

Certification of seed potatoes in Prince Edward Island, as in all provinces of Canada, is carried out by the Canadian Food Inspection Agency (CFIA) under the authority of Part II of the Regulations to the Seeds Act.

Field grown seed potatoes are produced in Canada in seven classes as indicated in Table 1. When seed of one class is planted, it automatically produces seed of the next lower class when harvested, provided it meets the inspection standards of that class. This "flush through" system of production ensures seed of the highest performance in all classes.

Canada has a single seed certification agency and a single system of class names and class standards that apply in all provinces. The United States, having individual State certification agencies, utilize a number of seed class designations varying from State to State. In Canada, seed classes within the classification system are based on both generation and disease level. The generation level depends entirely on the number of years planted in the field. Table 2 provides a useful means of comparing the various certification systems.

Table 1
CANADIAN SEED POTATO
FIELD CERTIFICATION PROGRAM

Maximum Tolerance on Final Inspection

Seed Class	Inspections	Total Viruses (%)	Total Blackleg & Wilts (%)	Total Varietal Mix (%)
PRE-ELITE (PE)	2	0	0	0
ELITE I (E1)	2	0	0.1	0
ELITE II (E2)	2	0.1	0.2	0
ELITE III (E3)	2	0.2	0.3	0.05
ELITE IV (E4)	2	0.3	0.5	0.1
FOUNDATION (F)	2	0.5	1.0	0.2
CERTIFIED (C)	2	2.0	2.0	0.5

¹ PE class seed must be produced in land that is in a three year crop rotation.

² All seed classes have zero tolerance for Potato Spindle Tuber Viroid and Bacterial Ring Rot.

Wisconsin**	E1	E2	G1	G2	G3	G4

Abbreviations Used:

G =	Generation	E =	Elite
N =	Nuclear	PE =	Pre-Elite
F =	Foundation	C =	Certified

*Source: Certification Section, Potato Association of America

**Notes: Canada has a Certified Class or a 7th year.
 Alaska has a Generation 7 and 8 or a 7th and 8th year.
 Idaho has a Generation 6 or a 7th year.
 Maine has a Generation 3 and 4 or a 7th and 8th year.
 Michigan's designation of FY=Field year.
 Minnesota and North Dakota have a Certified Class or a 7th year.
 New York has a Generation 4, 5 and 6 or a 7th, 8th and 9th year. If lots originate at Cornell-Uihlein Farm, the first three generations (G1-G3) are also designated by a "AU@" to denote source.
 Wisconsin has a Certified Class or a 7th year. Lots NOT originating at the UW Lelah Starks Elite Foundation Seed Potato Farm are designated Gn where n=years in the field.

Disease Control in Prince Edward Island:

Because Prince Edward Island is "an island", it is possible to control the importation of many potato pests and diseases. In addition to the rigorous control imposed under the certification system, the province of Prince Edward Island has a Plant Health Act which provides additional assurance of disease-free seed stocks. The Province is now considered to be free of Spindle Tuber Viroid and Bacterial Ring Rot has all but been eliminated in both seed and tablestock crops.

The Province of Prince Edward Island introduced a mandatory Post-harvest Laboratory Virus Testing Program in 1998. This program requires all seedlots that are intended for planting on PEI to be tested for Potato Virus Y (PVY) and Potato Leafroll Virus (PLRV). Samples must be collected or supervised by an inspector appointed by the Department of Agriculture (PEIDA) or the Canadian Food Inspection Agency (CFIA). Testing must be carried out in a CFIA accredited laboratory following a protocol approved by the Department of Agriculture. Test results are released to the Plant Health Regulatory Program of the PEIDA and any seedlots that exceed the virus levels contained in the Plant Health Act, Potato Regulations, are not eligible for planting on PEI.

Additional information on disease control in Prince Edward Island is available from:

Seed Production in Prince Edward Island:

Quality Prince Edward Island seed potatoes originate at a number of private seed operations across the Island as well as the Fox Island Elite Seed Farm, owned and operated by the Prince Edward Island Potato Board. The production of Plantlets and/or Nuclear seed at these sites is carefully monitored by the Canadian Food Inspection Agency. Progeny from the Nuclear production units becomes the base for the entire seed system.

Seed in the PreElite, E1, E2, E3, E4, F and C classes is produced by Island seed growers and marketed by licensed dealers and exporters. Traditionally, Prince Edward Island exports seed potatoes to approximately fifteen countries. A wide selection of public and private varieties is available.
