Symbol legend:x - Suppressed to meet the confidentiality requirements of the *Statistics Act***Footnotes:**

1. Less than \$500 is reported as 0.
2. As of 1992, crop insurance payments no longer include payments under private hail insurance plans.
3. Generally, these are programs to deal with unusual climatic and/or economic conditions in the agriculture sector. Starting in 1999, payments under the Western Grain Stabilization, Tripartite Plans and the Gross Revenue Insurance Plan are included in other payments.
4. As of 2001, receipts from Wool, Pregnant mare's urine, Horses and Embryos are accounted for in Miscellaneous livestock and livestock products.
5. Prior to 2001, receipts from grapes and blueberries were included in Other berries and grapes. The categories Other berries and grapes and Strawberries, taken together, are equal to Total small fruits.
6. The category Total small fruits comprises receipts from the sale of numerous small fruits. Blueberries, Strawberries and Grapes are the major sub-components of Total small fruits.

The Farm Input Price Index (FIPI) measures the change through time in the prices received for agricultural commodities at the first transaction point. Much of the price information used in compiling the index is obtained from surveys of farm respondents throughout Canada. Where possible, administrative data are used as price sources in order to reduce response burden. The prices used in computing the index are, as closely as can be determined, the transaction prices received by farmers when ownership first changes hands. These prices include any bonuses and premiums which can be attributed to specific commodities, but they exclude any storage, transportation, processing and handling charges which are deducted before the farmer is paid.

	Period 2: July to December	0.1	0	0	0	0	0	0	0	0	0

Footnotes:

1. A residual is arrived at by taking the number of animals leaving for farming operations outside that province minus the number of animals coming to farms within that province.
2. Slaughterings at federally and/or provincially inspected packing plants, by province of origin.
3. Imports of live animals from the United States slaughtered in Canada.
4. All provincially inspected slaughter not included in Federal Provincial Inspected Slaughter (FPIS)
5. Other provincial slaughter not elsewhere specified and not usually inspected.
6. Sheep and lambs killed and eaten on farms.
7. Sheep and lambs killed and sold at the farm gates.
