The PEI ecoENERGY Audit Assistance Program

The PEI ecoENERGY Audit Assistance Program offers the pre- and post-retrofit audits at a reduced rate of a \$100* for each. There is no application needed to receive this reduced rate. The Office of Energy Efficiency will be billed the remainder of the cost up to \$250 per household: \$200 for the pre-retrofit audit and \$50 for the post-retrofit audit.

Example: A 1,200 sq. ft. bungalow plus the basement for a total of 2,400 sq. ft.

- The pre-retrofit audit cost is of \$300 + \$50 (for the extra 400 sq. ft.) – the client is billed \$150 + GST.
- The post-retrofit audit cost is of \$150 + \$25 (again for the extra 400 sq. ft.) – the client is billed \$125 + GST.

To be eligible for the program, the client must own the home or have a lease-to-own or rent-to-own agreement with the landlord. The home does not need to be the primary residence if it is owned as a rental property.

Clients may choose their own audit service company from a list of Natural Resources Canada (NRCan) approved audit service companies. The following are the three companies based on PEI:

- Sustainable Housing: 1-877-722-2842
- AmeriSpec of PEI: 1-866-922-6607
- HouseMaster PEI: 1-877-853-0777, (902) 439-1261

Note:

*The PEI ecoENERGY Audit Assistance Program rates apply to households up to three stories and a footprint less than 2,000 sq. ft. For homes exceeding these limitations, an additional \$50 will be charged per each additional 1,000 sq. ft. for the pre-retrofit assessment and an additional \$25 will be charged per each additional 1,000 sq. ft. for the post-retrofit assessment.

Clients with an annual income of less than \$35,000/year can qualify for the PEI ecoENERGY Audit Assistance Program for Low-income Households in which the Provincial Government will pay for both the pre- and post-retrofit audits in full.
