

PEI Energy Grant Program

The Office of Energy Efficiency was established in early 2008 to assist Islanders in reducing their energy consumption and minimize the environmental footprint of our daily activities.

The mandate of the Office of Energy Efficiency is to provide Islanders with advice and programs that will promote sustainable energy use and reinforce the importance of sound energy management for the economic, social and environmental well-being of Island residents and businesses.

The Office of Energy Efficiency is also a one-stop centre for provincial and federal energy efficiency programs and services.

The PEI Energy Efficiency Grant Program

- Provides a direct subsidy to homeowners for the implementation of recommended upgrades identified in the ecoENERGY Energy Efficiency Evaluation Report.
- All upgrades in the evaluation report are eligible for this program except windows and doors.
- The grant will be equal to 15% of the total amount paid on upgrades to a maximum of \$1,500 per household.

*If a client receives a grant for upgrades to windows and doors, the maximum grant amount will be reduced by the amount of the window and door grant.
