

# Inventory of Counselling Resources for Survivors of Sexual Abuse and Sexual Assault

This inventory lists all known counselling resources on Prince Edward Island for survivors of sexual abuse/assault. The inventory does not distinguish between therapists who specialize in providing treatment services for survivors of sexual abuse/assault and those who provide general counselling services for a diversity of issues. When seeking a therapist, it is appropriate to ask the service provider the extent of their clinical experience and training in the treatment of sexual abuse/assault survivors.
